CAT

A NEW GENERATION OF WORK BOOTS: AS COMFORTABLE AS THEY ARE TOUGH

We were amazed when we got ahold of Caterpillar's full grain leather work boots. Once you try them on, they're incredibly flexible and lightweight, especially compared to most other work boots out there. The secret is Caterpillar's Flexion construction, which is designed around the natural movement of your feet – which means you don't have to break

them in, because they're already contoured to fit. Plus they're built to last with dual-forged construction that's both cemented and stitched twice. SRX rubber outsole exceeds global industry standards for slip-resistance. Removable EVA footbeds and dual-density heel pods for extra cushioning. 605664 also features 200g insulation.
